

**Overview:**

Students will explore their place and practice mapping skills by creating a map of their classroom using google drawing

**Grades:** K-5

**Topic:** Map Making/Social Studies

**Materials:** Access to computers/Google Drive

Students will have prior knowledge in the use of google drive/docs and how to login and access these features. Students will have prior knowledge of Ordinal directions and have practiced orienting themselves to these directions in the classroom.

Instruct students on the basics of map making by demonstrating making a map of the classroom on the whiteboard or SMART board if available in the classroom. Students will log into the their google account and access the [shared drawing file](#). Students will save that file to their own google drive then edit it and create their own map of the classroom.

	1	2	3
Ordinal directions	Student does not enter ordinal directions or is only 25% accurate	Student is 50-75% accurate	Student is 100% accurate
Key	Student completes 0-25% of the key	Student completes 25%-99% of the key	Student completes 100% of the key
Mapping accuracy	Student maps objects with 25% accuracy or less	Student maps objects with 25-75% accuracy	Student maps objects with 75% to 100% accuracy

**Standards:**

**GRADE 1: Competency 5.2: Use a compass rose and map symbols.**
