

Lesson Plan Assignment GAFE 5

Christine Kolczak
Hellgate High School
Counseling Chair

Content: Counseling Curriculum
Topic: Career Domain/ Standards 1,2,3/ Grade 10
Academic Domain/ Standards 1,2,3/ Grade 10

After completion of GAFE lesson 4 students will have utilized the MTCIS Website from the Dept. of Labor and Industry.

<https://mtcis.intocareers.org/materials/portal/home.html> Students will have a username and profile. They will have completed 3 different interest inventories and review the occupations they selected. Students will know the education needed for the occupations. They will have completed a college search of one local or state institution, one “competitive” institution and one institution that is in a place they would like to live.

For this lesson to be held towards the end of their Sophomore year, they will work together to collaborate on a map of Montana. They will volunteer to take one of the 25 colleges in Montana, provide a brief overview of the school, upload a photo and pin it to the map. The 25 schools are located here: <http://www.montanacolleges.com/colleges/college-institution-directory-print.php>

They can then review all the schools during the presentation and hi-light 3 schools they will meet with at the college fair in September of their junior year. All 10th grade students at HHS will complete this task. Students will utilize the computer lab on wheels. No grading occurs. Instructor should encourage discussion and allow personal experiences to be shared. Verbal checks for understanding are appropriate.
